a

Humanities 101

- An experience of beauty that inspires a feeling of pleasure is often referred to as an aesthetic experience
- Architecture is considered art due to its aesthetic effect of structures in their environment
- Art is considered multi-functional due to its political and social commentary and its ability to serve as an artifact of culture, and provide enjoyment
- Music, Religion, Literature and Architecture are all within the realm of Humanities
- Traditional stories that serve to explain some natural phenomenon, the origins of humanity or customs or religious rites are known as myths
- Logic, aesthetics and epistemology are all branches of philosophy
- Art can assist in physical and emotional healing. Art can be used to enable connection in advertising, product and services. Art provides aesthetic pleasure
- Love and war type of the hero are both examples of universal themes
- When studying the humanities, a chronological timeline of events allows us to see connections between cause and effect
- There are unifying ideas that are developed or repeated throughout a literary or artistic work
